Ottawa, ON • 613-219-6739 • kevalp061411@gmail.com • [keval0611.github.io/portfolio](https://github.com/keval0611.github.io/portfolio)

PROFESSIONAL SUMMARY

Results-driven IT Support & Operations Professional with dual academic diplomas in Computer Science and Business Administration. Hands-on expertise delivering Tier 1/Tier 2 technical support, hardware lifecycle troubleshooting, POS diagnostics, incident triage, and network administration. Proven track record managing retail store technology, automating diagnostic workflows with Python, and maintaining high SLA performance in enterprise and operational environments.

TECHNICAL SKILLS & COMPETENCIES

IT Operations & Technical Support: Tier 1/Tier 2 Support, Helpdesk Operations, Incident Triage, ITSM Ticketing Systems, Remote Diagnostics, POS Terminals, Hardware Lifecycle Management, Root Cause Analysis, SLA Compliance, SOP Runbook Authoring.

Systems & Network Administration: Windows 10/11, Linux (Ubuntu/Debian), Active Directory, Group Policy (GPO), TCP/IP, DNS, DHCP, Subnetting, Network Sockets, Wi-Fi Telemetry & Jitter Analysis.

Programming & Machine Learning: Python, Bash Scripting, Java, SQL, Win32 API, TensorFlow, Convolutional Neural Networks (CNN), Keras, Process Automation.

Business Strategy & Compliance: Workflow Optimization, Data Analysis, Asset Management, Cash Reconciliation, Inventory Auditing, Provincial Regulatory Compliance (CannSell Certified).

WORK EXPERIENCE

- Assistant Manager**
Canna Cabana

June 2025 – Present
Ottawa, ON

 - Direct daily storefront and operational technology workflows, overseeing POS endpoint terminals, digital inventory reconciliation, and shift staff operations under provincial regulatory standards.
 - Manage hardware troubleshooting and connectivity resolution across payment terminals and barcode scanners, ensuring 99.9% uptime during peak business hours.
 - Perform daily digital sales audits, automated inventory logging, and cash discrepancy triage, consistently maintaining full regulatory compliance.
- Tech Support Intern**
GAO Tek Inc.

May 2024 – January 2025
Toronto, ON (Remote)

 - Delivered front-line Tier 1 and Tier 2 technical support to enterprise clients, diagnosing and resolving connectivity, device, and service-related issues.
 - Guided end-users through structured diagnostic workflows and remote troubleshooting procedures, driving issue resolution efficiency.
 - Logged, prioritized, and tracked customer service tickets using internal ticketing systems to ensure accurate documentation and timely SLA follow-up.
 - Authored standard operating procedures (SOPs) and diagnostic runbooks to streamline technical support workflows.
- Facility Ambassador / On-Site Technical Support**
Platinum Parking Management

September 2023 – May 2025
Regina, SK

 - Maintained and troubleshooted automated pay-and-park electronic kiosks and gate hardware systems, ensuring consistent functionality and minimizing operational downtime.
 - Responded to technical service tickets on-site, diagnosing and resolving hardware, electrical, and network connectivity faults efficiently.
 - Executed scheduled preventive maintenance protocols, routine hardware component swaps, and physical security inspections across multiple facilities.
 - Conducted cash collection, financial reconciliation, and audit reporting with strict accuracy and accountability.

TECHNICAL PROJECTS

- PingStabilizer – Network Telemetry & Jitter Mitigation Probe**

Python, Win32 API, Sockets

 - Engineered a desktop telemetry tool that tracks packet Round Trip Time (RTT), isolates background OS Wi-Fi roaming latency spikes, and stabilizes real-time UDP/TCP traffic.
 - Integrated live simulated telemetry into an interactive web HUD dashboard demonstrating diagnostic socket probes.
- CNN Vision Pipeline – Deep Learning Optical Classifier**

TensorFlow, Keras, Python

 - Built an end-to-end convolutional neural network (CNN) image classifier trained with multi-class feature extraction and dropout regularization.
 - Deployed a client-side inference demo widget generating softmax probability vector predictions in real time.

EDUCATION

Diploma in Business	May 2024 – December 2025
Algonquin College	Ottawa, ON
Diploma in Computer Science	January 2021 – December 2023
University of Regina	Regina, SK

CERTIFICATIONS

- Crash Course in Python – Google / Coursera
- Convolutional Neural Networks in TensorFlow – DeepLearning.AI
- Introduction to TensorFlow for Artificial Intelligence, ML, and DL – DeepLearning.AI
- Search Engine Optimization (SEO) with Squarespace – Coursera
- CannSell Certification – Ontario Provincial Standard
